Tomorrow's logistics software solutions, today...

e2cargo is an affordable Software-as-a-Service which gives you all the performance of highly developed logistic systems via the web. **No IT infrastructure, no IT staff, just pay as you go.**

Imagine your own logistics portal, complete with your own branding. A portal with a secure shipment entry for your customers and space for messages. Freight calculate your shipments and create invoices online.

You provide a 24/7 service for your customers – **a real marketing differentiator !**

External Users

From now on you have your own internet presence! Enter your customers and users and communicate with them via your own logistics portal! Your logo, your data, your own logistics office online – welcome.

Maintain Master Data

Insert details of your transport partners. Specify service and transport types. Set delivery terms, define goods or products. Plenty of master data available to speed up and simplify your logistics life.

Freight Quotes

Either you or your customers enter shipment details for quotation. Choose your freight type – lump sum, rate, surcharge, discount – and insert your price. You can do it even while negotiating on the phone with your customer.

Shipment entry

Manage and calculate shipments easily. Create from quote or add new. Update pick-up and delivery times, transport instructions and further transport parties. Specify shipment details and choose from all your master data.

Create invoices

One-click invoice generation for your transport services. Tailored invoices with your company logo and organisation details. Professional invoicing that saves you time and money. Create your invoice anytime, wherever you are.

E-Mail Center

To give you the flexibility you need, we mail out Quotes, Transport Orders and Invoices to customers, carrier and others. We attach pdf's and provide standard text with your logo.

Dashboard

Get started instantly and see the most important data at a glance. The dashboard shows recent quote, shipment and invoice activities as well as important logistic performance statistics.

Sign-up and start working immediately . It provides all functions of a mobile office so that you can complete your logistics job. Easy to use, low cost subscription – brilliant interfaces – that's e2cargo!
